

GEOGRAPHY P250/2 (HOME BASED EXAM) TERM ONE 2020

(World problems and development)

TIME: 3HRS

INSTRUCTIONS.

- Attempt four questions in all.
- Question one in section A is compulsory.
- Use of a readable handwriting is key.
- Scan and send your work directly to my number individually.

SECTION A

1. The table 1. Below shows the amount of HEP in 000kw for selected countries in 2015.

COUNTRY	AMOUNT IN "000"KW
Uganda	293
Kenya	163
Tanzania	122
Brazil	300
Germany	572
Total	1450

Table 2. Distribution of HEP in percentage consumptions.

COUNTRY	Production of HEP Consumed in percentage				
	Heavy industries	Light industries	Street industries	Domestic	Others
Uganda	12	48	12	18	10
Kenya	18	32	24	16	10
Tanzania	22	38	18	10	12
Brazil	25	25	30	14	06
Germany	40	10	40	06	04

- (a) Construct a compound divided rectangle to show information in the table above.(08 marks)
- (b) Outline the advantages and disadvantages of the method.(05 marks)
- (c) Calculate the percentage amount of HEP consumed by light industries for Brazil.(02 marks)
- (d) Name two energy sources consumed in Uganda but not Germany.(02 marks)
- (e) Account for the variations in HEP consumed and produced between Uganda and Germany.(08marks)

Turn Over.

SECTION B.

2. Account for the low levels of agricultural modernization in tropical world. (25 marks).
3. Explain the factors limiting the commercial exploitation of the forest resources in any one country in the amazon basin.(25 marks)
