

S.I Geography (Weekly Recess work)

Sub-Topic : Environment and Activities

In reference to our previously covered sub-topic the(*values of studying Geography*)

Let us now use our Home environment to understand this week's sub- topic (Activities carried out in the environment)

Study and observe the various activities carried out in your Home area. (Environment)

N.B list down all these activities, including those observed somewhere you have been/ visited.

Assessment Task

1. Find out how these activities affect the environment
2. Sharing ideas with your family members, suggest ways in which we can conserve/ protect our environment.
