

## WANYANGE GIRLS WEEKLY TEST

1. Study the table below showing climate statistics for Harare (Zimbabwe) and Libreville (Gabon) and answer the questions that follow:

Station		J	F	M	A	M	J	J	A	S	O	N	D
Harare	Temperature (°C)	24	23	22	21	20	18	17	18	20	23	24	24
	Rainfall (mm)	200	175	100	25	20	-	-	-	-	50	100	175
Libreville	Temperature (°C)	30	31	31	31	30	29	28	28	29	29	29	30
	Rainfall (mm)	250	250	525	300	213	25	25	25	100	275	380	200

(a) Calculate the:

- (i) annual range of temperature
  - (ii) mean annual rainfall
- for each station

(02 marks)

(b) Describe the characteristics of the climate for:

- (i) Harare
- (ii) Libreville.

(10 marks)

(c) Outline the factors which have caused the type of climate at:

- (i) Harare,
- (ii) Libreville.

(08 marks)

(d) For either Zimbabwe or Gabon, explain the effect of climate on human activities.

(05 marks)
