CHEMISTRY SENIOR ONE

ACTIVITY TWO

1] Chemistry is a scientific study of the structure of substances, how they react when combined or in contact with one another and how they behave under different conditions. Hence state the three main points that chemistry deals with when we study it according to

(i) _____

(ii) _____

(iii) _____

2] Construct chemically correct sentences using the following terms.

(a) Matter.

(b) Laboratory

(c) Apparatus

(d) Chemistry.

CHEMISTRY SENIOR ONE

ACTIVITY THREE

1] Write a short story (essay) advising your friend who lacked / lost interest in chemistry during this coronavirus pandemic holiday!

1(b) You realise at home that your parents / caretaker after doing their work they get time to get a shady place if its shinning and meditate about very many important things.

So using the same approach.

Give a list of apparatus you saw while you were at school.

1 _____	7 _____
2 _____	8 _____
3 _____	9 _____
4 _____	10 _____
5 _____	
6 _____	

CHEMISTRY SENIOR ONE

ACTIVITY FOUR

1] You have observed that now while at home, it is inevitable to live without fire.
(i) State 10 benefits of fire you at

_____	_____
_____	_____
_____	_____
_____	_____

2] State 5 dangers of fire to your community.

3] Using the knowledge of chemistry on how to handle apparatus in the laboratory, suggest ways you can do to avoid the dangers that fire can cause.

1(b) Having stated the above materials. State the possible ways how as a responsible senior one student, you can avoid the risks/harm that they can cause

(a) sitting room.

(b) Bed room.

(c) Kitchen.

(d) House compound.

Garden.
