

S 5 chemicals of life weekly biology task

1. The diagram below shows a stage during protein synthesis in a eukaryotic cell.

(a) Name parts labelled A, B, C and bond forming at D (02marks)

A:

B:

C:

D:

b)(i) State the stage of protein synthesis illustrated above, giving where it occurs in a eukaryotic cell (01mark)

.....

(ii) Outline three differences between the stage in b (i) above and DNA replication. (03marks)

.....
