

Senior 5 ECONOMICS

HOLIDAY PACK-06

Issued by: **Tangwa Ronald**

Date: 9/05/020

Scenario:

Manufacturing industries/sector is one of the levels of production as earlier discussed in class.

This involves turning raw materials into finished output(s). New goods and services are produced for the final user/human consumption.

Task:

- i) Elucidate on merits of having a Sugar Manufacturing factory in an area.
- ii) Explain the demerits associated with existence of a manufacturing industry in an area.
- iii) In your own view, what are the challenges facing people who own manufacturing industries in Uganda?

END

COVID-19 HAS NO CURE, BUT IS PREVENTABLE.
